

Use the Squeeze Theorem to evaluate the following limit. If the answer is positive infinite, type "T"; if negative infinite, type "N"; and if it does not exist, type "D".

$$\lim_{x \rightarrow \infty} \frac{\sin x}{x}$$

Use the Squeeze Theorem to evaluate the following limit. If the answer is positive infinite, type “T”; if negative infinite, type “N”; and if it does not exist, type “D”.

$$\lim_{x \rightarrow \infty} \frac{\sin x}{x}$$
